

Pre-Planning Checklist

You can do a lot today to prepare—but don't do this alone. Invite family to be part of this process; it will help you, while helping them be connected in a meaningful way.

How to get started

- Create a list of family and friends to be notified in case of a medical emergency or death.
- Write an obituary or record information you would like included in an obituary.
- Gather photos, video, audio recordings and memorabilia to permanently preserve in an online memorial.
- Decide where the funeral notice, obituary and memorial information should appear.
- Select where would you like to be buried.
- Find out the requirements of that cemetery, including the need for a vault (concrete liner).
- Choose level of religious observance.
- Shroud | Tahara | Shomer
- Select a synagogue, chapel or graveside service.
- Choose an officiant.
- Designate a charity for contributions in your memory.
- Select speakers or specific readings you would like to have.
